It is very reasonable to believe that the Governor intends to Right the Japanese when they errice, and the meeting held yesterday with Ku Hung-kok and his officers was for the purpose of anlisting their services. The fact that 1,000 Cautonese soldiers arrived by the steamer Martha three days ago, and 1.500 more are expected in a few days and that more rifles and emmunition are; being landed from every Chiness steamer, it scarcely looks as though the Governor intended to pescefully band over the island, although the excuse given is that a few days ago it was thought that France would interfere, so that the additional men and ammunition might be needed.

The sum of \$500,000 is expected from the Vicercy at Nanking to the Governor, which might be accounted for as the result of a little diplomatic thinking in Peking.
